

California State Band Championships Visual Performance

The Visual Performance Caption will evaluate all performance aspects of the visual portion of the presentation.

Ensemble Quality of Achievement **Score** _____ **/100**

<p>Clarity, accuracy and control of the ensemble's form/body/equipment contributions is highly refined with few lapses. When flaws do occur, recovery is quick and effective. Uniformity of style and technique reflects a high level of training throughout the ensemble. Effort changes are evident and well-controlled.</p>	<p>The ensemble exhibits above-average clarity, accuracy and control of their F/B/E responsibilities during most of the show. Minor flaws are evident, and recovery occurs in most cases but some flaws remain uncorrected. Uniformity of movement style and technique reflects a moderately high level of training.</p>	<p>The ensemble displays a moderate level of clarity, accuracy and control of their F/B/E responsibilities that may vary during the show. Recovery occurs inconsistently. Uniformity of movement style and technique reflects a moderate level of training.</p>	<p>Clarity, accuracy and control tends to be sporadic across the duration of the performance. Flaws are more numerous and recovery tends to be slow and occurs only occasionally. Uniformity of movement style and technique reflects a low to moderate level of training.</p>	<p>The ensemble demonstrates no discernible training in the area of marching or movement technique.</p>
Box 5 100-91 Superior	Box 4 90-76 Excellent	Box 3 75-61 Good	Box 2 60-46 Fair	Box 1 45-1 Poor
<p>Individual body control is consistently exemplary of the highest level of performance. Time, space and form responsibilities are completely fulfilled with few or no visible flaws. Professionalism is fully evident through precision, presence and stamina while engaging a rich and deep visual orchestration in their performance.</p>	<p>Individual body control reflects a significant investment of time in training although occasional lapses may occur. Time, space and form responsibilities are generally fulfilled with some visible flaws. Professionalism displays above-average levels of precision, presence and stamina while engaging a moderate level of multilayered responsibilities.</p>	<p>Individual body control shows a moderate level of investment in movement training with fairly frequent inconsistencies. Time, space and form capabilities reflect an intermediate Attempts at recovery are evident however results vary. Professionalism is moderate and less consistent. Precision, presence, and stamina vary significantly throughout the program.</p>	<p>Individual body control is low to moderate, with a lack of definition prevailing. Time, space and form responsibilities contain many errors, Recovery happens very slowly, if at all. Likewise, the level of professionalism displayed indicates a beginning stage of development due to issues with precision, presence and stamina.</p>	<p>Achievement is uniformly poor in all areas within this subcaption.</p>

Individual Training, Accuracy & Definition **Score** _____ **/100**
