SOLO

An aerial architectural rendering of the Davenport High School campus. The central feature is a large, white, multi-winged building. To its left is a large parking lot filled with cars. Further left is a green soccer field with white markings. Below the soccer field is an orange tennis court. At the bottom of the image is a football field with an orange track around it. A road with a few cars runs along the top and right sides of the campus. A light blue arrow points from the text box towards the main building.
