

- Our facility/physical plant is compact, and requires this event to have two-way unit flow in some locations. Please courteously follow volunteer instructions to use specific gates, sidewalks etc. And of course, be gracious towards other bands and their staff members!

- Buses and spectators enter from Knox Road; buses/directors will check in at the front of the school, and then buses will move to the East lot to park. Directors may choose to unload students here and move to scheduled official warmup, or they may unload in the East lot - depending on the schedule they have set for their own unofficial warmup vs official warmup.

- Equipment trucks enter from S 44th Street and park in the East lot, then unload. Trucks won't need to move again until departure.

- Face North when in official warm up A or B to mitigate sound bleed. Please, no metronomes or gock blocks in this area.

- Unofficial perc warmup can take place in the motor pool area and the northeast cul du sac to mitigate sound bleed (try to put buildings between you and the stadium)

- Unofficial guard warmup can take place on the tennis courts. Please, no metronomes or gock blocks in this area.

- Perc and guard may join their unit in official warm up by transferring through the spectator entrance. Please do not tap or play here, and also courteously follow gatekeeper instructions. Alternatively, perc and guard may choose to wait and join their unit when they all enter the field for performance.

- Please keep your cell phone charged and turned on for the duration of your stay (silenced when necessary) in case we need to reach you with emergency information.
